8. DRUG TESTING

- 8.1. British Skydiving fully supports Drug-Free Sport and is committed to preventing drug misuse in skydiving. Drug misuse is cheating and it may prejudice your safety and the safety of others. There is no place for the misuse of drugs in our sport. British Skydiving's Anti-Doping Policy and Rules are set out in **Form 220** which is downloadable from the British Skydiving website and available on request from British Skydiving HQ.

- 8.2. **ANY COMPETITOR** may be required to take a random drugs test. Refusal to provide a urine sample for analysis will result in disqualification. Many medications that you may need to take for common medical conditions, such as asthma or hay fever, may contain Prohibited Substances. It is vital that you do not accidentally take a prohibited substance; the consequences are the same as if you were doping. Getting it from a doctor on prescription is no defence!
- 8.3. For further information, please see the anti-doping page of the British Skydiving website: www.britishskydiving.org which has links to the FAI and World Anti-Doping Agency (WADA) websites, where you can find up-to-date information about the prohibited list of substances and therapeutic use exemptions (see below).
- 8.4. Each competitor is **STRICTLY LIABLE** - this means that it is your own personal responsibility as a competitor to ensure you comply fully with this policy. A positive test result means disqualification for the whole team, a loss of any funding, and a ban for the individual. Form 220 sets out the procedure to be followed in the event of a positive test. The test is concerned with whether a prohibited substance is present in the body, not how or why it got there.
- 8.5. The Therapeutic Use Exemption (TUE) application process gives competitors a means of attaining approval to use a prescribed Prohibited Substance or Method for the treatment of a legitimate medical condition. This process is in place to protect the rights of competitors to compete on a level playing field.
- 8.6. Any competitor with a TUE must attach a copy to the competition entry form, and must also file a copy with the British Skydiving HQ before he or she competes. TUE forms may be downloaded from the anti-doping section of the FAI website:

<https://www.fai.org/page/anti-doping-therapeutic-exemptions>

9. Video Submission

- 9.1. Teams are responsible for the submission of video for each round of competition. The minimum required format will be stated to competitors in advance of the competition, however item 4.9 of the competition rules (or FAI rules) provides more detail. The upload mechanism in use for the competition will be explained to team Videographers at or immediately after the Competitors' Briefing. Upload facilities may differ between competitions depending on facilities available at the hosting drop zone.
- 9.2. **Licence to use Images:** In entering this competition, competitors agree to grant British Skydiving a royalty-free non-exclusive licence to use any video or other images submitted to the competition for training and judging purposes.

10. SELECTION CRITERIA

Teams must compete in at least one Grand Prix and the Nationals to be eligible to win the overall Grand Prix medal in their category.

11. COMPETITION RULES
